

MOHAMED BARRAH

Full-Stack Web Developer

mohamedbarrahx@gmail.com | +212 604 444 569 | Tamesna, Morocco | github.com/ku-uhaku

SUMMARY

Results-driven Full-Stack Developer with 2+ years of professional experience building web applications and business solutions. Proficient in Laravel, React, Docker, and Git. Proven ability to deliver complete products from database design to user interface in startup environments. Currently advancing through Zone01 Oujda peer-learning program (Level 17).

WORK EXPERIENCE

Full-Stack Web Developer – MJ2Tech

September 2023 – November 2025

- Developed and maintained multiple web applications and business solutions for real clients.
- Built a school management system covering student enrollment, teacher scheduling, and admin dashboards.
- Designed stock and inventory management solutions to streamline business operations.
- Contributed to optician management software including appointment booking and patient records.
- Led frontend development with React, delivering responsive and accessible user interfaces.
- Implemented RESTful APIs with Laravel and managed deployments using Docker.
- Maintained code quality through Git version control, reviews, and technical documentation.

Web Development Intern – MJ2Tech

August 2023 – September 2023

- Completed internship with hands-on exposure to Laravel MVC and Git-based team workflows.
- Delivered a first professional project under senior developer mentorship.
